

## Spring 2011

*Rescheduled for  
Feb. 8, 2011*

**David Baker, PhD**  
Department of Biomedical Sciences  
Marquette University

"Probing Outside of the Synapse to Understand Diseases of the Brain"

Feb. 15, 2011

**Audrey Seasholtz, PhD**  
Molecular and Behavioral Neuroscience Institute  
University of Michigan

"Stress and Depression: Roles for the CRH-Binding Protein?"

March 8, 2011

**Paul Kenny, PhD**  
Scripps Research Institute

"Noncoding RNAs and Drug Addiction"

*March 15th  
6-8PM*

**Society for Neuroscience: Brain Awareness Week 2011**  
*Expert Presentations (Brain Trauma, Mental Illnesses, and Brain Imaging) at Medical College of Wisconsin*

March 22, 2011

**Lauren Jacobson, PhD**  
Center for Neuropharmacology and Neuroscience  
Albany Medical College

"Antidepressant Regulation of HPA Function: Relevance to Predicting Antidepressant Response"

April 5, 2011

**Karyn Frick, PhD**  
Department of Psychology  
University of Wisconsin-Milwaukee

"Estrogen, Molecules, and Memory: a Novel Approach to Hormone Therapy and Age-Related Memory Decline"

April 12, 2011

**Brandon Aragona, PhD**  
Department of Psychology  
University of Michigan

"Dopamine and Opioid Regulation on Monogamous Pair Bonding"

April 26, 2011

**Edward Blumenthal, PhD**  
Department of Biology  
Marquette University

"Drop-Dead: A Neurodegeneration Gene with Effects Far Beyond the Brain"

May 3, 2011

**Jakie McGinty, PhD**  
Department of Neurosciences  
Medical University of South Carolina

"BDNF Infusion into the Prefrontal Cortex Suppresses Cocaine-seeking"

May 10, 2011

**Carolynn Patten, PhD, PT**  
Department of Physical Therapy  
University of Florida

"From Motor Units to Motor Recovery Post-stroke"
