

## Integrative Neuroscience Research Center (INRC)

## **SPRING 2022 SEMINAR SERIES**

**Integrative Neuroscience Research Center: Current Seminar Series** 

Date	Speaker	Title
Tuesday, February 1 <sup>st</sup>	Baljit S. Khakh, Ph.D.  Department of Physiology University of California, Los Angeles	Cells That Tile Your Brain: Astrocyte Roles in Neural Circuits
Tuesday, March 1 <sup>st</sup>	Michael Mauk, Ph.D.  Department of Neuroscience University of Texas-Austin	Timing in Neural Systems: From Cerebellar Timing to Computational Principle
Tuesday, March 8 <sup>th</sup>	Alex Savtchouk, Ph.D.  Department of Biomedical Sciences  Marquette University	Multimodal 'Big Data' Recordings from Living Mouse Brains
Tuesday, March 22 <sup>nd</sup>	Zoe McElligott, Ph.D.  Department of Psychiatry University of North Carolina	Under the Influence: Exploring the Extended Amygdala and Related Circuitries in the Context of Alcohol and Opioids
Tuesday, April 5 <sup>th</sup>	Tracey Shors, Ph.D.  Department of Psychology Rutgers University	Ruminating on Memory
Tuesday, April 19 <sup>th</sup>	J. David Jentsch, Ph.D.  Department of Psychology  Binghamton University	A Neurogenetic Analysis of Impulsivity and its Relationship to Addictions
Tuesday, April 26 <sup>th</sup>	Yasmin Hurd, Ph.D. Department of Pharmacological Sciences, Neuroscience, and Psychiatry Icahn School of Medicine at Mount Sinai	Unlocking the Neurobiological Impact of Developmental Cannabis and Psychiatric Risk
Tuesday, May 3 <sup>rd</sup>	Kathryn Reissner, Ph.D. Department of Psychology and Neuroscience University of North Carolina	Abstinence-Dependent Effects of Cocaine Self- Administration on Nucleus Accumbens Astrocytes and the Incubation of Cocaine Craving

## All seminars are held at 3:30 pm in Schroeder Complex, Room 256.
